Director	Shirley Martin
Director	Bill Leichtman
Director	Jeff Hall
Director	Dan Welton
Director	Dave Anderson

### Work Bee at East Tawas a success

A recent workbee was held at the East Tawas range. A group of volunteers rebuilt the Target frames on the 25 yard range. Thanks to all who participated in this endeavor.

Help is always needed at both ranges. The biggest task throughout the summer is keeping the grass cut and trimmed. If you can spare some time stop on by and let someone know or give a call to any of the board members.

## Coming soon—a Brand new Club Website

New changes are coming to the Club. In the beginning of the year the Board approved a complete re-design and update to the Club website. A local company, Intensified Technologies, was selected to perform the technical portion of this task. It was our goal to update the membership database and membership renewal process and incorporate them into this update. As the club has grown, maintaining the database in a spreadsheet format has proven impossible to keep up. For those that wish to update their membership online, this will be available.

The new website should be published very soon. It is clean, concise and still provides all the necessary information about what is happening at the club. Andrew Taber has volunteered to be the acting webmaster to keep the information, calendar and schedules up to date and accurate.

The membership database and renewal process will be coming as the second phase. Intensified Technologies will be hosting the site and will provide all of the latest in data security and firewall protection for our information.

---

At the June General Membership meeting, a motion was made to stop any new projects at the Club until the floor in the East Tawas Clubhouse is improved. We have received two quotes to have the carpet removed and replaced with tile. The cost for this will be around \$10,000.00.

This spending was not approved at that meeting, therefore, this will have to be voted on at the September General membership meeting, the first Wednesday of Sept, @ 7pm.

## Reminder!

A reminder to members who use the 300 yard range at Wurtsmith. Whenever the 600 yard range is scheduled for practice or a match, the 300 yard range and certain access roads must be closed. Please check the schedule if you plan on shooting on the 300 yard range so you will not be disappointed.

Find us on Facebook: Iosco Sportsmens Club  
Or: ISC Wurtsmith's shooting range  
And: Iosco Sportsmens Club Archery Range

## Shooting Matches and Events

Copies of the Clubs shooting matches and events have been placed at both ranges in the 100 Yard shooting shed. If you are looking for a match to shoot, check it out. The Calendar and schedule are still available on the Club Website as always.

---

## Just a Reminder!

When we are moving from one house or apartment to another, things can get really hectic. Please take the time to update your address, phone or other information at the Club. We hate to lose members because we do not know where to forward your renewal notice.

## New Event at Wurtsmith The Steel Plate Challenge

Second Saturday of the Month @ 9am till noon  
Cost is \$10.00 + \$5.00 per gun

The Clubs Archery facility at the Wurtsmith Range could use some tender loving care. If archery is your passion, we could use an individual or group to keep this area maintained and open for shooting and to run some events or a league.

### Sportsmen's Club Newsletter and website

At the Board meeting in June, I had recommended that the new position of Club Webmaster be created. This position will be structured the same as the Membership Secretary. It does not have to be board member but will be answerable to the board. It is necessary to have this position so the club calendars and the website in general can be kept current and updated.

In the past this function has been performed by member, Lew Rudell, who has done a tremendous job for the club and we thank him for all he has done. Without Lew we would not have had a club website.

In addition to the website I have also volunteered to resume the responsibilities of writing the club newsletter. For the near future the newsletter will be available on the website and additionally copies will be provided at both ranges. For ideas on the newsletter contact: Andy Taber 989-362-6911
